EPH Members will have the right to the following:

If a member is not on their eligibility list, the PCP is required to contact El Paso Health Medicare Advantage Dual (HMO-D-SNP), Member Service Department to determine eligibility when contacted by the member seeking care. The Members PCP must initiate a referral to the specialty care Provider that outlines the necessary treatment for the Member. If the Member's condition requires urgent care, the specialist should see the Member within 24 hours. For routine care, the specialist should see the Member within two weeks. Specialty care providers and facilities are responsible for ensuring the necessary authorizations have been obtained prior to providing services. Specialty Care Provider responsibilities must adhere to the availability and accessibility standards of El Paso Health.

7.4 Admission Notifications

Facilities are responsible for admission notification for the following inpatient admissions. We need admission notification, even if the physician provided advance notification and pre-service coverage approval is on file:

- Planned/elective admissions for acute care
- Acute inpatient rehabilitation
- Long-term acute care

- Unplanned admissions for acute care
- Skill Nursing Facility (SNF) admissions
- Admissions following outpatient surgery
- Admissions following observation
- Emergency admissions (when a member is unstable and not capable of providing coverage information), you must:
- Notify us within 24 hours, or the next business day if on a weekend/holiday, from the time coverage information is known

7.5 Appeals

EPH offers a peer-to-peer discussion with the medical director that made the pre-service determination. Once a pre-service adverse determination has been made, Medicare does not allow the decision to be changed as a result of the peer-to-peer discussion. You must submit any additional information from the post decision discussion if you want to submit a Medicare appeal. To allow for a change in decision as a result of a peer-to-peer discussion, we have a pre-decision peer-to-peer window for standard clinical denials (excludes expedited and administrative denials). This is for outpatient and inpatient pre-service requests. El Paso Health will reach out to offer a 24-hour window, prior to finalizing a potential adverse determination, to allow for the discussion between the physician and the medical director. If we receive additional information during this pre-decision peer-to-peer window, it can change the final decision of the determination. If the discussion does not happen before the end of the 24-hour window, the decision is finalized and any peer-to-peer discussion that follows is informational only.

7.6 Notice of Medicare Non-Coverage

You must deliver required notice to members at least two (2) calendar days before termination of skilled nursing care, home health care or comprehensive rehabilitation facility services. If the member's services are expected to be fewer than 2 calendar days in duration, the notice should be delivered at the time of admission or commencement of services in a non-institutional setting. In a non-institutional setting, if the span of time between services exceeds two (2) calendar days, the notice should be given no later than the next to last time services are furnished. Delivery of notice is valid only upon signature and date of member or their authorized representative, if the member is incompetent. You must use the most current version of the standard CMS approved notice titled Notice of Medicare Non-Coverage (NOMNC).

Any appeals of such service terminations are called fast track appeals and are reviewed by the QIO. You must provide requested records and documentation to us or the QIO, as requested, no later than by close of calendar day of the day you are notified by us or the QIO if the member has requested a fast track appeal. This includes weekends and holidays.

SECTION 10: CLAIM PROCESSING GUIDELINES

This section establishes the Claims Processing requirements and time lines that must be used by Providers. These requirements are based on the following authorities noted below. El Paso

Health follows Texas Department of Insurance (TDI), Health and Human Services Commission (HHSC), Health Insurance Portability and Accountability Act of 1996 (HIPAA), National Standard Correct Coding Initiative (NSCCI) and Centers for Medicare and Medicaid Services (CMS) guidelines.

10.1 Prompt Payment Requirements

El Paso Health will adjudicate both paper and electronic clean claims:

1. Claim Type
2. Program and
3. Service Area

The statutory payment period by which a clean claim must be paid begins to run upon the receipt date of a clean claim, including a corrected clean claim. Clean claims received by El Paso Health are adjudicated in adherence to the following performance requirements and time frames set by CMS:

1. 98% of all Clean Claims within 30 days of receipt (whether paper or electronic)
2. 99% of all Clean Claims within 90 days of receipt
3. 98% of all Appealed Claims within 30 days of receipt
4. 100% of all claims, including Appealed Claims, within 24 months from Date of Service (DOS)

Time frames are based on calendar days and are subject to change due to updates in CMS requirements, Federal and State laws, rules or regulations.

Payment of a clean claim is considered to have been paid on the date of:

1. Date of issue of a check for payment and its corresponding Remittance Advice to the Provider.
2. Electronic transmission, if claim paid electronically.
3. Delivery of the claim payment, if payment is made through a commercial carrier, such as UPS or Federal Express.
4. Receipt by the Provider, if payment is made other than steps one through three.

El Paso Health is not required to pay any claims to Providers who, are excluded or suspended from CMS for Fraud, Waste, and Abuse.

REQUIREMENTS

Under the National Uniform Insurance Industry and CMS, El Paso Health will only accept paper claims submitted on CMS 1500 or CMS 1450 UB-04 claim forms. **It is important to note that**

the National Uniform Claim Committee (NUCC) has approved a revised version of the CMS 1500 claim form effective 04/01/2014.

Under the HIPAA provisions, El Paso Health will only accept 5010 ANSI X12N electronic files. El Paso Health requires all electronic files to contain Taxonomy Codes. The Provider Taxonomy code set is an external non-medical data code set designed for use in an electronic environment, specifically within the ANSI ASC X12N healthcare transaction. These codes may be obtained from the Washington Publishing Company.

The implementation guides may be obtained from:

Washington Publishing Company, PMB 161

Rockville, MD 20852-2116
Telephone (301) 949-9740, Fax (301) 949-9742
www.wpc-edi.com

Under HIPAA guidelines, El Paso Health will only accept HCPCS, CPT-4 and ICD-10 codes approved by CMS for claim reimbursement.

Under CMS guideline, El Paso Health will accept place-of-service codes approved by CMS. El Paso Health adheres to the following 28 TAC Chapter 21, Sub Chapter T, "Submission of Clean Claims" amendments to §§21.2802, 21.2807, 21.2815, and 21.2821.

1. Ensure that carriers are aware of the responsibility to process a clean claim submitted together with deficient claims;
2. Ensure that penalties are calculated consistently and in accordance with statutory requirements; and
3. Provide consistency in reporting dates and clarify the reporting period for the required verification data report.

Documentation Requirements

Providers must include the following required documentation with the claim submission:

National Provider Identifier (NPI) Requirements

The National Provider Identifier (NPI) final rule, Federal Register 45, Code of Federal Regulations (CFR) Part 162, established the NPI as the standard unique identifier for health-care providers and requires covered health-care providers, clearinghouses, and health plans to use this identifier in Health Insurance Portability and Accountability Act (HIPAA)-covered transactions. An NPI is a 10- digit number assigned randomly by the National Plan and Provider Enumeration System (NPPES). Providers must verify the NPI number associated with their Provider name and specialty before beginning the on-line attestation process. Provider must ensure to attest all NPI numbers for the practice name and individual name Taxonomy Code Requirements.

Taxonomy Code

The Health Care Provider Taxonomy Code Set is an external, non-medical collection of alphanumeric codes designed to classify health-care providers by Provider type and specialty. Providers may have more than one taxonomy code. Taxonomy codes can be obtained from the Washington Publishing Company website at www.wpc-edi.com. Providers must verify the taxonomy code associated with their Provider type and specialty before beginning the on-line attestation process.

Diagnosis Codes (IDC-10-CM/PCS)

El Paso Health requires the International Classification of Diseases, Ninth Edition, Clinical Modification (ICD-10-CM/PCS).

This coding system is published by the U.S. Department of Health and Human Services, and is available from:

Superintendent of Documents
U.S. Government Printing Office
Washington, D.C. 20402

Diagnosis Codes (ICD-10)

El Paso Health requires that providers use the Current Procedural Terminology (CPT), which contains a listing of descriptive terms and identifying codes for reporting medical services and procedures performed by physicians.

These codes are used for the following services:

- Evaluation and Management
- Anesthesia
- Surgery
- Pathology and Laboratory
- Radiology (Including Nuclear medicine, diagnosis ultrasound)
- Medicine

Modifier Requirements

A Current Procedural Terminology (CPT) code set modifier is a two-digit code reported in addition to the CPT services or procedure code that indicates the service or procedure was modified in some way. Modifiers are essential tools in the coding process. The American Medical Association (AMA) developed modifiers to be used with its CPT codes set to explain various aspects of coding. Modifiers are used to enhance a code narrative to describe the circumstances of each procedure or service and how it individually applies to the patient and payers. A modifier provides the means by which a rendering physician may indicate that a

service or procedure has been performed, or has been altered by some specific circumstances, but not changed in its definition or code. The lack of modifiers or the improper use of modifiers can result in claims delays or denials from El Paso Health. Most procedure codes do not require a modifier, but are required for some services submitted on professional claims and outpatient hospital claims.

Modifiers are used as a method to report:

- A service or procedure that has been modified but not changed in its identification or definition
- Special circumstances or conditions of patient care
- Repeat or multiple procedures
- Cause for higher or lower costs while protecting charges history data
- Assistant surgeon services
- Anesthesia service
- Interpretation service
- Technical component service
- Professional component for a procedure or service
- Service or procedure performed bilaterally
- Multiple services performed
- Reduction or elimination of a procedure by the same Provider
- Service performed by more than one physician

10.2 In-Patient Hospital Claims

Present on Admission (POA) reporting is required for all inpatient hospital claims. No hospital is exempt from this requirement. All hospital providers are required to submit a POA value for each diagnosis on the claim form. POA is defined as a condition present at the time the order for inpatient admission occurs. Conditions that develop during an outpatient visit, including emergency department, observation, or outpatient surgery, are also considered POA. POA information helps to determine whether a claim will be considered for payment. No payment will

be made for claims containing POA indicators “N” or “U” when a Hospital Acquired Condition (HAC) is present.

10.3 Claim Submission Time Lines

In reference to Professional Provider claims, the Date of Service (DOS) dictate submission timelines. In order to be considered timely, a claim for medical service must be presented for processing within 95 days of the DOS. In the case of Institutional Providers, the Date of Discharge (DOD) is the driving element. Institutional claims for medical services must be presented within 95 days from the DOD. In the cases of prolonged in-patient stays, Institutional Providers may submit interim billing.

At no time will El Paso Health charge a Provider or a Member a fee for claim adjudication.

Revised CMS 1500 (02/12)

It is important to note that the National Uniform Claim Committee (NUCC) has approved a revised version of the CMS 1500 claim form. This version shall be CMS (02/12). CMS has announced the following tentative datelines:

- January 6, 2014: Payers will begin to receive and process paper claims submitted on the revised 1500 Claim Form.
- January 6 through March 31, 2014: Dual use period during which payers continue to receive and process paper claims on the old 1500 Claim Form (version 08/05) along with paper claims on the new form.
- April 1, 2014: Payers receive and process paper claims submitted only on the revised 1500 Claim Form (version 02/12).

10.4 Multi-page Claims Forms

If a claim is split, the Provider must ensure that the claim is split at a logical break and all pages must contain the required information. For example, the Provider may submit the surgery charges in one claim and the subsequent recovery days in the next claim. Hospitals are required to submit all charges including HCPCS codes when required with the Revenue Codes.

The CMS-1500 Paper claim form is designed to list six-line items in Box 24. If more than six-line items are billed on a paper claim, a Provider may attach additional forms (pages). All the claims must contain all the required billing information. On subsequent pages of a multi-page claim, the Provider should indicate “continued” in Block 28 and the combined total charges for all pages should be listed on the last page in Block 28. In addition, the Provider should indicate the number of pages of the multi-page claim on the top right-hand corner of the form for example, (page 2 of 3).

The paper UB-04 CMS-1450 is designed to list 22 lines in Box 42. If services exceed the 22-line limitation, the Provider may attach additional claim forms. Each of the claim forms must contain all the required billing information. All subsequent pages of the multi-page claim should indicate the page numbers in Box 23 and “continued” in line 23 Box 47. The combined total charges for all pages should be listed on the last page in line 23 of Box 47.

Note: It is strongly recommended that providers who submit paper claims keep a copy of the documentation they send for processing. It is also recommended that paper claims be sent by certified mail with a return receipt requested and a detailed listing of the claims enclosed. This is important to demonstrate the claims were received by El Paso Health Advantage Dual SNP and that the 95-day claims filing deadline has been met.

10.5 Electronic Claim Submission & Response Reports

El Paso Health has the capability to receive ANSI X12N 837I and 837P health claims. In order

to enroll, please contact El Paso Health Provider Relations Representative to obtain a companion guide:

A clearinghouse is an electronic claim and information network available to all Providers and their billing agents in the El Paso Health care community that enables physician's hospitals and ancillary providers to file patient claims electronically to El Paso Health. Filing electronic claims directly to a clearinghouse will allow for the reduction in administrative costs, accelerate claims payment, increase accuracy, and simplify daily administration.

Note: All clearinghouse entities provide their individual Payer Identification numbers. For more information or to obtain the Payer Identification numbers, log onto the El Paso Health website (www.elpasohealth.com) for a Companion Guide.

- The Companion Guide assists trading partners in clarifying El Paso Health's specified values in order to facilitate implementation of the Health Insurance Portability and Accountability Act of 1996 (HIPAA).
- HIPAA directed the Secretary to adopt standards for each transaction. These standards enable health information to be exchanged electronically and adopt specifications for implementing each transaction. HIPAA Implementation Guides were published for this purpose and should be used by all affected legal entities.

Recommendations for a clean testing process:

- It is important to make sure the four payer ID's have been entered into your computer system. A list of available Payer IDs can be located in the companion manual.
- It is important to provide a "good, clean 837 (I or P) 4010A1 test file which meets all HIPAA specifications.
- It is important to provide a unique NPI number for all 837 submissions at the corresponding Provider and facility loops that are submitted within the transaction.
- It is recommended that the Provider's social security number or Federal Tax Id Number (TIN) is included as a secondary identifier in REF02 loop 2010AA for validation purposes. It is required to address all grey areas in the El Paso Health 837P Companion Guide. All grey areas have an attachment note that provides additional formatting information.
- It is required to provide the proper Taxonomy codes per specialty. To accommodate our providers, we are only requiring the Header Taxonomy number to be reported. A list of all header taxonomy numbers can be obtained in our Electronic Claims

Submission companion manual or at:

Washington Publishing Company
Publishes X12 Implementation Guides and offers training on EDI standards,
<http://www.wpc-edi.com>

Note: Our contracted clearinghouse will reject any claims that do not contain proper Rendering Provider Taxonomy Numbers and/or Rendering Providers Unique Identifiers.

Once the testing process is complete, El Paso Health will notify your office of the exact date electronic claims processing may begin. If you have any questions, feel free to contact EDI Development Department / Provider Relations at 915-532-3778 or 877-532-3778.

It is recommended that the Provider merge like revenue codes together to reduce the lines to 28 or less or payment may be delayed.

10.6 CLAIM FILING DEADLINES

Claims must be received by El Paso Health within 95 days from each date of service (DOS). A clean claim will be processed within 30 days. The Provider should allow 30 days before re-billing any claim to avoid duplication of claims.

Once a Clean Claim is received, El Paso Health is required, within the 30-day claim payment period and 18-day clean claim payment for electronic pharmacy claim submission, to: (1) pay the total amount of the claim, or part of the claim, in accordance with the contract, (2) deny the entire claim, or part of the claim, and notify the Provider why the claim will not be paid.

Payment is considered to have been paid on the date of: (1) the date of issue of a check for payment and its corresponding EOB to the Provider by El Paso Health, or (2) electronic

transmission, if payment is made electronically.

If a claim was denied due to a billing error, the corrected claim must be resubmitted within 120 days from the disposition date on the EOB.

If the claim was denied due to a request for medical documentation, please include a copy of the claim, a copy of the EOB and the requested documentation with the resubmission. Providers must adhere to the claim filing timelines and claims received after the filing deadline will be denied for failure to meet timely filing.

When a service is billed to another insurance resource, the filing deadline is 95 days from the date of disposition by the other insurance carrier. When a service is billed to a third party and no response has been received, the Provider must allow 110 days to elapse before submitting a claim to El Paso Health however, the federal 365 day filing requirement must still be met.

It is strongly recommended that providers who submit paper claims keep a copy of the documentation they send. It is also recommended that paper claims be sent by certified mail with a return receipt requested and a detailed listing of the claims enclosed. This is important to demonstrate that the claims were received by El Paso Health and that the 95-day claims filing deadline has been met.

10.11 COORDINATION OF BENEFITS (COB)

El Paso Health Medicare Advantage Dual (HMO-D-SNP) does not process as a primary carrier if the services qualify for COB benefits unless the services have not been allowed or were denied by the primary carrier. The remittance advice on the primary carrier should reflect the denial.

Deductibles:

El Paso Health will consider deductibles for reimbursement when the primary carrier applied

the payment amount directly to the Member's deductible. The explanation of benefits must reflect the applicable payment by the primary carrier and a completed, signed copy of the claim must be submitted to El Paso Health Medicare Advantage for consideration.

El Paso Health will consider any other coverage to include any group insurance, prepaid health plans, automobile insurance and worker's compensation or program that is or may be liable to pay all or part of the health care expenses of the member.

If the amount paid by a third-party health insurer is less than the amount payable for the services by El Paso Health, providers may bill El Paso Health for the difference between the amount paid by the third-party carrier and the El Paso Health allowable amount. The claim must be filed timely and in accordance with all the filing guidelines.

If it is determined that El Paso Health is the secondary (or tertiary) payer, El Paso Health will reimburse per COB Processing Guidelines. We will calculate the difference between El Paso Health's Maximum Allowed Amount and the primary carrier's payment, paying the lesser of the two minus any applicable copays, coinsurance, or deductible.

The payable period for Medicare /Medicaid eligible recipient claims filed on paper is 24 months from the date listed on the Medicare Remittance Advice.

The NCQA is an independent group established to provide objective measurements of the performance of managed health care benefit plans, including access to care, use of medical services, effectiveness of care, preventive

services, and immunization rates.

On an annual basis, El Paso Health collects data from randomly selected sample sizes of members in order to review their medical records. The HEDIS medical record study measures our participating health care providers' adherence to nationally accepted clinical practice guidelines.

11.5 CLINICAL PRACTICE GUIDELINES

El Paso Health defines clinical practice guidelines as practice parameters, recommendations, or an agreed upon set of principles for the delivery of a certain type or aspect of health care. El Paso Health's Quality Improvement Committee (QIC) has adopted both preventive and clinical practice guidelines for adults to address various areas such as diabetes and behavioral health. Our Practice Guidelines are designed to address the needs of our Members. You can obtain a copy of our Practice Guidelines by contacting the Quality Improvement Department at 915-532-3778 or toll free at 1-877-532-3778.

Purpose:

The hot-line is available 24 hours a day, 7 days a week. Reports may also be made anonymously. These reports are never traced. Anyone can make a report without fear of intimidation or retaliation.

14.2 REPORTING FRAUD WASTE AND ABUSE

El Paso Health maintains several ways to report suspected fraud, waste and abuse. As a Medicare Advantage provider and a participant in government-sponsored health care, you and your staff are obligated to report suspected fraud, waste and abuse at EPH Fraud, Waste, and Abuse Hot- line: 1-866-356-8395 Anonymous reporting, suspected fraud, waste and abuse may also be reported by reaching out directly to the EPH Chief Compliance Officer at cgibson@elpasohealth.com.

Health care fraud costs taxpayers increasingly more money every year. State and federal laws are designed to crack down on these crimes and impose strict penalties. Fraud, waste and abuse in the health care industry may be perpetuated by every party involved in the health care process. There are several stages to inhibiting fraudulent acts, including detection, prevention, and investigation and reporting.

Many types of fraud, waste and abuse have been identified, including the following:

Provider fraud, waste and abuse

- Billing for services not rendered
- Billing for services that were not medically necessary
- Double billing
- Bundling
- Up-coding

Providers can prevent fraud, waste and abuse by ensuring the services rendered are medically necessary, accurately documented in the medical records and billed according to American Medical Association guidelines.

Member fraud, waste and abuse can consist of the following:

- Benefit sharing
- Collusion
- Drug trafficking
- Forgery
- Illicit drug seeking
- Impersonation fraud
- Misinformation/misrepresentation
- Subrogation/third-party liability fraud
- Transportation fraud

To help prevent fraud, waste and abuse, Providers can educate Members about these types of fraud and penalties. One of the most important steps to help prevent member fraud is as simple as reviewing the Medicare member ID card. It is the first line of defense against fraud. EPH may not accept responsibility for the costs incurred by providers rendering services to a patient who is not an EPH member, even if that patient presents a Medicare member ID card. Providers should take measures to ensure the card holder is the person named on the card. Educate patients to carry their ID card at all times, and report any lost or stolen cards to EPH as soon as possible.

14.3 PART C REPORTING REQUIREMENTS

Part C Medicare reporting requirements MA organizations are subject to additional reporting requirements. We may request data from you. Some measures are reported annually while others are reported quarterly or semi-annually. This includes, but is not limited to:

If we discover that you are being retaliated against for bringing a suspected violation to our attention or for participating in an investigation, we will act as per EPH policy. Any Provider who commits or allows any form of retaliation may be subject to disciplinary action, up to, and including contract termination. If you suspect healthcare fraud is occurring and feel that the Compliance **Hot-line** investigation is not satisfactory, or you do not feel comfortable with reporting the allegation through any internal method; you have the right to contact the Office of the Inspector General (OIG).
